Food Contact Declaration

Please note that the manufacturer or seller of parts and articles made out of the above mentioned products have to take the full responsibility regarding applicable legal requirements. The suitability of the finished article for the intended application (e. g. with respect to global migration limits) has to be checked by the manufacturer or seller.

When manufacturing above listed products Celanese Engineered Materials complies with the Food Contact Framework Regulation (EC) 1935/2004 and the guidelines laid down in the Regulation (EC) 2023/2006.

A food contact approval is related to the final product and to its intended use. A raw material, such as the above listed Celanese Engineered Materials, are only ingredients of the final products. Consequently, Celanese is not in a position to give a general statement regarding the compliance with applicable food contact regulations, such assessment being in the field of control and responsibility of the manufacturer of the final article.

EU: Regulation (EU) 10/2011¹

The Food Contact Framework Regulation (EC) 1935/2004 sets out the general rules for all classes of food contact materials without giving any specific rule of how to prove the safety of food contact articles. Plastic materials, e.g. polymers compounds as sold by Engineered Materials are regulated by Regulation (EU) 10/2011 and its amendments.

The monomers and additives used for the manufacturing of the above mentioned product are listed in the regulation (EU) 10/2011 from January 14th, 2011.

The above mentioned polymer compounds contain monomers and additives which are regulated with a specific migration limit. If required, we will disclose this confidential formulation information to a suitable third party test institute (laboratory) on the basis of a secrecy agreement.

To fully comply with food regulations in Europe, the finished plastic article needs to comply with, amongst other things, Overall Migration Limit requirements and Specific Migration Limits as specified in (EU) 10/2011 when tested on the food contact surface with the appropriate food simulants and time/temperature test conditions. **This is the responsibility of the manufacturer of the final article.**

以下测试之样品由申请者所提供及确认: 共聚聚酯

SGS工作编号: CQ17809729 - CQ
 型号: M90
 客户参考号: M26/M60/CM90/M120/270/M360/M460
 品类成分: 共聚聚酯 二氧戊环
 制造商: 常州永富石化有限公司常州分公司
 样品接收日期: 2017年02月24日
 测试周期: 根据客户要求, 2017年02月24日 - 2017年03月02日
 测试要求: 根据客户要求,
 (1) 基于欧洲化学品管理法规2017年1月12日公布的供应链认证的有害物质清单(根据欧盟第1907/2006号REACH法规), 对173种有害物质(SVHC)进行筛查测试。
 测试结果: 请参考下一页

备注:	根据具体的范围将部分测试, 筛选文件中SVHC的测试结果0.1%(w/w),	通过
